

Children Ministry Parent's Newsletter

January 2009

Leadership Team : Bernice Lau, Melody Ng, Sarah Hui, Rebecca Lau, Mrs. Chan, Tina Lau, and Amy Chow

A Note from Children Ministry Director

- ☺ **Training Our Children** - We want to train our children to learn to serve others as they grow up. It is best to start cultivating them now -- when they are still little. **Starting in February, we will invite some older/ mature children to serve in the Preschool occasionally, so that they could learn how to serve others.** Parents: we need your help! We want you to help encourage them at home and remind them the importance of serving. (Children who served will be presented with a certificate for appreciation.)
- ☺ **Amy's Vacation** - Please kindly note that I will be on vacation between 1/19 and 1/29. The leadership team and pastors will assist in case of emergency.
- ☺ **Wonder Devotional Book** - Please purchase Book #5 from your Sunday School Teachers (FYI: this is optional. But we do **HIGHLY recommend** the children to start developing a habit of having daily devotion when they are young. As a reward, they will be collecting tokens by completing and sharing their devotion.)

Nursery/Toddlers

Parent's Rotational Helpers -

We would like to invite parents to stay in the room not only to attend to your child(ren) but also to **help out** whenever necessary. The suggested ratio in newborn room is 1 adult to 2 babies and in toddler room is 1 adult to 3 kids. However, please also be mindful of the space and number of parents in the rooms.

Emergency Plan -

Our church is working on the church-wide emergency plan at this moment. Before a permanent plan is established, we would like to ask parents in both rooms to help out and follow the instructions from church leaders in case of emergency such as fire or earthquake.

Wonder Devotional Book Story.....

Sophia Wong (parent: Joseph & Jo)

Wonder devotional book helped her to know God more, understand God's teaching more, and get closer to God.

She reads the devotional book almost everyday. Sometimes when things happen, she remembers what wonder book taught her. She can relate wonder book's teaching in her daily life.

Token was one of the biggest motivations for Sophia to do wonder devotional book. This is how she started her routine.

.....
